Attorney Docket No. 033988R003

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicants: Harold HALL Confirmation No.: 9528
Serial No.: 09/011,160 Group Art Unit: 1723
Filed: January 20, 1998 Examiner: Terry K. Cecil
For : A MAGNETIC FILTRATION DEVICE

REQUEST FOR NEW (NON-FINAL) OFFICE ACTION

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

The First Action Final, has been received and its contents carefully noted.

This First Office Action (following a filing of an RCE with accompanying Preliminary Amendment with claim revisions made in the Preliminary Amendment) was made final. The imposition of finality in this case is respectfully submitted to be improper; and thus withdrawal of the Final Office Action and replacement with a new Non-Final Office Action is respectfully requested. The grounds set forth for making the first action final was that the claimed invention set forth in the post RCE application was directed at the "same invention" as that in the pre-RCE filing application.

This assertion is respectfully traversed. As an example useful in analyzing the criteria involved in what constitutes a "same invention" reference is made to the statutory double patenting discussion of that term set forth below.

804 Definition of Double Patenting [R-3] - 800 Restriction in Applications Filed Under 35 U.S.C. 111; Double Patenting

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor" Thus, the term "same invention," in this context, means an invention drawn to identical subject matter

A comparison of the Preliminary Amendment claims to the claims directly preceding that filing reveals at least one non-identical subject matter claim. Accordingly, withdrawal of the finality status of the present case and entry of the claim amendments presented herein is respectfully requested.

The revising of the first Action Final to a Non-Final Action, will also facilitate prosecution in this case in providing both the Office and the Applicant greater flexibility in seeking a final conclusion relative to the present invention.

A Notice of Appeal is being filed under separate cover to maintain pendency while this request is considered.

Respectfully submitted,

SMITH, GAMBRELL & RUSSELL, LLP
